THE
GRAEFENBERG PILLS.
THERE are two most conclusive reasons why this class of Medicines deno minated "IMPORTANT," should be made the means of incalculable and enduring blessings to the human fam ly. Bu pose for example, the whole order of latest long and expensive observation and great medical learning and experience may be brought to bear upon the invention and manufacture of a Pill. Why may not this long devotion to this division of the calculations be crowned with the result that a pill here is the of him for talents and tact in other things. There is no reason and it is but the [illegible] common sense to say that [illegible] be as perfect an article by man. Twenty five years devoted to any [illegible] have not owed upon the

Graefenberg Vegetable Pills
and they are present to the public with claims unequalled in the whole history of medical science. [illegible] ing the history of all great inventions that they were made [illegible] covered until [illegible] the moment of common [illegible] would then [illegible] the fashions of time' it was wonded. The tendency strange by at [illegible] but be saved [illegible] what a wonderful and enduring guide was inscribed [illegible] a great human path the fire only appointed [illegible] drew over them distant mountains and islands [illegible] unknown. He held it now transferred to the [illegible] of he advance one nation, enabling him to [illegible] away upon known Oceans instead of timeworn [illegible] right (familiar hand marks) [illegible] the New World upon whose [illegible] Great Nature is a poem. [illegible] before had the conception of the [illegible] The Old World had reached its highest [illegible] full early time drew mark for the revelation [illegible] he hold so much! Columbus from [illegible] hold and his [illegible] report, found [illegible] [illegible] of the printing of steam, of the magnetic [illegible] Each of these had its own "Millions of men marked out and Providential."

☞ In this [illegible] THE COMMON SENSE PHILOSOPHY [illegible] KNOWN TO THE WORLD AS MEDICINE. Most beneficial [illegible] and proofs of its which are to be found in the history of the world. We can trace the [illegible] Medical operations down to the present hour, [illegible] them teach us the lessons and giving us the hope that something yet better to heal humanity [illegible] and [illegible] hand. This principle is as true of Medical as of Physical science [illegible] is shown in the

GRAEFENBERG GAZETTE,
which is furnished gratuitously to all who wish it.—The

Graefenberg Pills,
[illegible] by all who have used them to be an [illegible] able addition upon all other medical combinations and secretions hitherto known and they are unequalled as

THE GREAT REMEDIAL TRIUMPH
The inventor of these Pills rests his theory upon no [illegible] dogma of all any medical teachers. That [illegible] medium to [illegible] the revelation of the

ALMIGHTY CREATOR,
THAT
THE BLOOD IS THE LIFE!!
he requires that his disciples and his patients make pure [illegible] correct that pass through the veins and [illegible] they can hope for a PERMANENT cure. Reasoning upon this principle the inventor of these Pills said that health must come from a pure blood. [illegible] at all thought here comes in the countless [illegible] compositions which are practiced upon the public [illegible] so numerous and beautiful are the [illegible] that the reader may be slow to [illegible] Remedy. A word therefore, on this subject.

READ THE GRAEFENBERG GAZETTE
[illegible] how simple and [illegible] it may now be that paper [illegible] Thousands have been convinced in [illegible] Territories in the Union and among [illegible] distinguished statesmen, jurists, clergymen, physicians [illegible] The base enumeration of their names would fill [illegible] Let the reader send to the most [illegible] agency for a copy of the Gazette which can be had

From Hiram Ohio.
[illegible] from troubling you with a few lines to express my great pleasure in being able to say that I have experienced the greatest relief from the effects of your Pills. For many years I have suffered much from constipation which has [illegible] my whole system, and I have not known a day's good health for many years past and being an old man I despaired of ever [illegible] but a friend recommended me to [illegible] which I did although without any [illegible] I am happy to inform you, has [illegible] and I feel my health and strength daily [illegible] I am satisfied that the merits of your Pills, which [illegible] must be acknowledged by the whole community and will become the most popular medicine of the day.

From Toledo Ohio.
[illegible] writing to you last upon the subject of my ill health I have been taking your medicine and [illegible] to say that they have been of great service to me and I [illegible] continue to give me the relief I have already felt. I shall [illegible] by you sent them. I need not at this age and [illegible] suffering I have before told you of but intend to persevere and hope to be able, the next time I write to give you the happy intelligence of a perfect cure. I have heard of many instances in my [illegible] where they have performed some astonishing cures.

From an Episcopal Bishop.
[illegible] I consider it to be the duty of every Christian to make known to the world any advantage that he may have derived by accident from any [illegible] and with the sentiment strongly impressed on my mind I feel great gratification in [illegible] to speak in the highest terms of the Pills [illegible] you have made in the [illegible] I was induced to try them, from seeing a number in which you have [illegible] and I must do myself the pleasure, [illegible] I had no conception of specially on which diseases red of [illegible] health, and [illegible] a much improved [illegible] I have little to endure, without [illegible] Physicians [illegible] Pills when [illegible] and [illegible] attitude, I am &c.

PATENTS.
AMERICAN AND FOREIGN OFFICE,
And Agency of the U S Patent Office, Washington
22 State Street—Boston.
THE subscriber by a joint appointment from the Commissioner of Patents, is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented or deposited therein, which will be received and forwarded free of expense and risk to their owners and with all possible dispatch. The subscriber will prepare Caveats Specifications Assignments and all the necessary Papers and Drawings, will make researches into American and Foreign works for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington and delay thereby as well as all personal trouble in obtaining their patents. The experience of fifteen years practice—an extensive collection of rare works on inventions, decisions &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment.

Important to Parents.
WINER'S
CANADIAN VERMIFUGE!
A CERTAIN REMEDY FOR WORMS
THIS remedy is not in its operation and more easily administered than any other.

THE GREATEST CAUSE OF DEATH among children is to be attributed to Worms. They give rise to numerous diseases and are the more fatal because least suspected. We propose to give this subject more attention, are carefully observe the symptoms which indicate the existence of worms in the bowels. *But one of many children would not doubt be cured.* Some of the symptoms are as follows: the children are to be pale or leaden color and to have occasional flushes, the eyes are heavy and dull, a fullness of the nostrils, the sleep is disturbed, the patient often awakening in great fright and is liable to starting and grinding the teeth. An appetite irregular being sometimes to a ravenous and at others to a loathing, occasional vomiting &c.

Winer's Canadian Vermifuge has acquired a reputation which is not equal to that of any other medicine of the kind, and is daily increasing in popularity wherever it is known and used, it is *universally approved*. It possesses a peculiarity which no other article of the kind does, it is more prompt and efficient in its action and entirely free from ingredients which have any bad or beneficial effect, the health of the patient being always improved even when no worms are discovered. Physicians prescribe it, and to use the language of one in high standing who resides in Cleaveland Ohio, consider it "the only article of the kind he ever saw that was so uniform and prompt in expelling worms" it may indeed be relied on with the utmost confidence, as it has never *been known to fail*, this is the reason why *all* who have used it will not use any other.

We have in our possession a number of certificates from physicians and others of the highest respectability who all testify to its superior efficacy, and recommend it as a never failing remedy.

READ AND BE CONVINCED

We the undersigned have frequently administered a medicine prepared by Mr John Winer of this town designated "Winer's Canadian Vermifuge" and being fully satisfied with its efficacy confidently recommend it as a safe and efficient remedy for the expulsion of worms from the intestinal canal.

New York March 30th 1847
Messrs J Winer & Co Sirs—My child of five years of age, was for more than two years severely afflicted with worms during which time we gave her different medicines recommended in such cases, but they produced no beneficial effects. I at length procured a bottle of your Canadian Vermifuge and gave it to her which caused her to pass a large number of worms, since then she has been in the enjoyment of perfect health. From my own experience, I would recommend your Vermifuge as being the most safe and effectual remedy for worms now in use. Yours truly,

[For the Whig and Courier.]

Temperance Mass Meeting at Corinna Town House.

The friends of Temperance and humanity are most cordially invited to meet Nov 5th, at 10 o'clock A M at the Town House in Corinna to determine means to carry on the War against old Alcohol Let Newport Stetson Dexter Garland, Exeter Plymouth and Levant especially understand that large delegations of men and women true and good, will be expected to attend

Per order

Corinna, Oct 20 1847

P S Will the Clergymen in the several towns named in the above give read it in their pulpits?

[FAIR] be held at Hallowell at the District Court Fifth Circuit United States held at Portland, two cases of large interest and considerable importance were decided. The first action was upon a contract for driving logs down the St John River, originally made between Samuel Smith, of Bangor, and Henry West the parties to which suit severally assigned their interests in it as the parties in the present suit Chas Gilmore of Orono and Capt James Smith of Lincoln Plaintiffs and George W Coffin and al of Boston, Defendants

The principal question involved were whether the sealing of the logs in the woods (which was claimed by Smith to be total loss and which the defendants found and was fraudulently sold to take) was not based on a mistake of fact, or the act of God at St John? and whether the gross mistake in estimating Gilmore, the defendants had been imposed upon and induced to receive the logs in lieu of Smith's interest? The case occupied the attention of the Court from Friday and on Saturday morning last the jury returned a general verdict for the sum of $3,150 and costs for plaintiffs, the questions of fraud and mistake presented to the jury by all writing full and ample charge into account for The jury were requested to return special answers to the two questions of fraud and mistake representations and both questions were decided in the negative

A motion has been filed for a new trial

There was a cross action brought by Coffin and al age of Goodwin and al for a breach in sending late in the same contract but in this case the jury found a verdict for the defendants

Col Goddard returned to our city on Saturday, in his usual happy frame of mind yet feeling that he had endured a pretty hard contest but had been very hardly merely endorsed in the result We gather up report of the case in the Col and also avail ourselves of the report of the Portland Umpire

Mr. Trist's Mission.

The Union alludes to the report that General Scott had invited the States of Mexico to send deputies to conclude a peace, and doubts its authenticity, add adds,— It is perfectly premature to go into any discussion about Gen Scott's views, or into his powers Orders have been sent out to recall Mr Trist from Mexico, and we are little doubt that no other agent will be sent out, and no proposition made by the United States for peace But as we stated the other day if Mexico desires peace, she must sue for it. If Mexico comes any propositions to make, they will of course be received, and submitted to the consideration and action of our government

By Computing Telegraph.

The amount of Lumber inspected in this city the present season is estimated at one hundred and eighty million feet This would cover 4140 Acres or give to each of the Twenty million inhabitants of the U S 207 feet each And at $9 00 per thousand would come to one million seven hundred and ten thousand dollars

If the population of Boston is 130 000 how many miles would its people extend in a line, if each person occupied 18 inches?

Ans —34 miles plus 110 yards or a circle of 10 miles and 3 100 diameter—which would cover an area of 6 acres and 30 allowing 18 inches square or 2 feet to each person

It is dollars are required to cover a square foot of land how many will it require to cover an acre?

Ans —$2 787 840

How many revolutions would the driving wheel of an engine make in traveling around the globe the distance being 25 000 miles and the height of the wheel 6 feet

Ans —6 366 000

How long time at 4 revolutions and 3-10 per second?

Answer—416 hours and 40 minutes or 17 days and 9 hours

If the earth revolve once in 24 hours, being 25 000 miles in circumference, then in 10 000 of a second it will go 4 feet

Time required to solve these problems less than six minutes

☞ We tender our thanks to Col Maxwell conductor on the Eastern Rail Road, to Capt Jewett, and to Mr Haines, Clerk of the Government, for papers forwarded us yesterday in advance of the Mail, by our prompt friend Mr Taylor

☞ The N Y Tribune states that a contract has just been closed for the construction of a steam boat four hundred feet long to ply between New York and Albany She is to make the passage both ways, in twelve hours

We learn from the Maine Cultivator, that Rev El Lincoln pastor of the Congregational Church in Hallowell has declined by advice of Council, the invitation to the pastoral charge of the Winthrop Church in Charlestown Mass

☞ R T S King, of Charlestown Mass who lectured before the Lyceum last evening, will preach in the Universalist church this evening Services to commence at half past 7 o'clock

☞ We learn that Engine Company No 4, will parade today for target shooting, for a piece of a ten dollar silver goblet There will be some prime shots we venture to say

☞ The interest is six per cent on the cost of the war with Mexico is twenty thousand dollars a day

A Word to Temperance Men.

But for the fact that mutability and imperfection are characteristics of almost every thing human we should look with astonishment on the present apathy which pervades the public mind on the subject of intemperance It is a conceded fact, that not withstanding the flood of light, the opposing appeals to the reason and conscience the efforts of the temperance press in our State, and the labors of love of a small but faithful and untiring band of Washingtonians this vice is yet among us, and it is believed by many that it has recently been gaining ground Certain it is that the deceitful health destroying compound called wine (so the pure unadulterated juice of the grape but a clumsy counterfeit) has gained ready access into circles where it had been proscribed Certain it is that the children of teetotalers offer it to their guests at social parties; under the parental roof Certain it is that men are too often seen in our streets, bearing unmistakable evidence of having drank to excess

Why then are our temperance societies silent and inert? Why are our heretofore active temperance men asleep or waiting for others to go forward in the work? Eternal vigilance is the price of liberty And to the unwearied and incessant toil of the philanthropist the only means of effecting and preserving any great moral reform Painful and intermittent efforts in the holy work of enlightening men that in total abstinence lies their only safety will not avail This cardinal doctrine together with the well established truth that the sale of intoxicating drinks as a beverage should be constant held up before the public mind Individual and personal efforts should be continually made to convince that large class of our community who have stood aloof from the cause that it is a clear and imperative duty to do and let their influence be felt on the right side—for strange as it may appear the intemperance of their own lives does not seem to move them Personal efforts should also be made, when needed to aid the civil authorities in executing wholesome laws on this as well as other subjects

Up then temperance men of Bangor and in the spirit of love and good will to your fellow man go forward, and do what you can

☞ Elihu Burritt Esq who is now engaged in France on the great mission of peace spoken of in his last letter published in the Christian Citizen, that soon after he arrived at Paris he called upon Jeremiah Winslow, a native of New England, who has resided at Havre for 10 years or more, and accumulated a large fortune by the whole fishery, a business which Winslow introduced into France He has in a magnificent mansion, situated upon a big eminence in the rear of the town, and commanding a view of the earth and the sea in several directions Mr Winslow ever has been active in the peace cause and contributed one hundred dollars towards most of the mission

Mr Burritt gives the following account of the operations of steam in commerce

Southampton is an important and important town in every respect It is one of the best ways to the Kingdoms, with depots of the revenue capacity I was never more deeply impressed with the proof of King and Government power and wealth than when in viewing the mighty steamers lying within these docks and basins There is the point I departed for the East and West Indies and the home of the most gigantic operations on One of these fast ocean steamers called The Indian and Australian Royal Mail Steam Packet Company, with a capital of nearly $3 000,000 The steamers on this line ply between England and Australia, and the route is one day long England to Singapore, 6,800 miles, occupying 42 1-2 days Singapore to Port Essington, (in Malaysia) 2,000 miles—passage 10 days Port Essington to Sydney 2 340—passage 8 days, making a total of 12 730 miles in 54 1-2 days, or at the rate of 100 miles a day And yet one of the most scientific men of the age recorded his conviction a few years ago, that steam power could not overcome the distance between Liverpool and Boston! A few years have rolled by, and there is a private company advertising to carry the mails nearly 13,000 miles on their steam packets.

The Newburyport Herald states that in the night of last Friday, a boat in which were Capt David Choate of Salisbury aged ten daughter, Lydia Jane, 16 years of age, was upset not far from the shore, and the young lady was drowned

War Items.

The Star always is published at the Capital, gives Gen Scott's orders for protecting religious ceremonies and private houses and property, under Gen Quitman's police regulations

Sergeant James Brannon, and Corporal Edward Hill, sentenced to be hung for drunkenness and mutinous conduct; but were pardoned through Gen Worth's intercession

Gen Scott only had 9000 active men under his command in taking the Capital.

Gen Scott furnished Santa Anna a wife with arms out to take him out of the city

It is rumored that the Mexican States will raise immediately 15,000 men to prosecute the war in every way

Gen Scott had issued orders, saying that a conspiracy was on foot among the Mexicans in the cities, and enlisting Americans to be on their guard

Gen Scott had given orders for the immediate release unconditionally of Gen Bravo as a reward for his valor and patriotism at Chapultepec

Gen Valencia remained quiet in his hacienda, some miles from the capital

Gen Paredes according to several letters, remained at the capital *incog*, and had seen all the recent operations without taking part in them, being detained by the friends of Santa Anna

Paredes, it is intimated in a communication, as well as the principal officers now saved, has gone to Falsen to place himself at the head of 20,000 men collected together by the States of the Confederation

Gen Quitman had caused all the churches to be opened in the capital and a deputation of merchants had requested Gen Scott to employ all possible means for reopening communications with the coast.

Gen Childs continued to throw shells into the city of Puebla, and no doubt he would be able to maintain his position The convoy under Gen Lane was already at Perote and would march next morning for Puebla

A letter in the Picayune from Vera Cruz, says that Scott Anna and Rea were endeavoring to prevent the entrance of Gen Lane into Puebla, that the latter has 2000 men under his command, the former has ag 3000

Killed and Wounded.

The N O Delta of the 15th contains a complete list of killed and wounded in the various battles from that of Mill de Rey to the final taking of the Mexican Capital The Mill de Rey list is a mournful record indeed The number of officers and non commissioned officers killed was 26, and privates 87 The number of wounded was between 700 and 800, including about 50 officers Great numbers of the wounded, we observe, are reported as having been wounded severely, and many of them have since died The total loss on all the occasions, was as follows, making a total, in the our divisions, of 1623

		Killed	Wounded	Missing
1	Gen Worth's Division,	140	766	27
2	" Twiggs "	36	194	10
3	" Pillow's "	21	111	10
4	" Quitman's "	41	267	
	Total,	238	1338	47

The following is a list of the killed and wounded in the New England Regiment —

Killed—Col T B Ransom, Sergeant Geo C Spencer, Corp Jed J Bellamy, Geo E Harvey, Privates Foster, Elson, John Dorsey, Geo Ball

Wounded—Musician G W King, slightly Privates E T Pike, Charles B Horsewell, C H Greer, Wm Marsh, James Mohan, Patrick Connors, Wm Welsh, R W Brown N W King Benj Osgood, N D Sias severely, William H Whitney, H B White, H B Stone, Chas Twombly, Jno Webster, Jno S Jones, Isaac Ware, A Nurse, W A Brown, J Moody, J Bailey, slightly

Santa Anna's Last Manifesto.

The following address from Santa Anna to the people of Mexico, on the occasion of his resignation of the Presidency is the last eventful of battles, if it did not proceed from an enemy, would be applauded for its patriotic and honorable sentiments

The President of the army of the republic of Mexico to his fellow countrymen.

With the most poignant and profound grief, do I announce to you that I have just repeated an extraordinary effort, and all the 18 hours incessant fighting I can say well under the necessity of abandoning the capital, which my enemy, probably hindered by the perfidious of the enemy, who pretended our retreat lines, streaming towards the Valley that Balsam has so well described, and with whose of the noble Vera Cruz who so gloriously defended, inch by inch, the right of honor to their country You have been witnesses that I have exerted resources at a time when there were none, that I laboured, day and night that I erected fortifications around Mexico, that I organized and assembled a powerful army, in order that I might wrest some favor from fortune, which has been so averse to us The results do not of one General subverted any entire plan of operations, a thing which you already know In the Convents and bridges of Churubusco, the enemy received some very severe lessons, which were thrice repeated afterwards, on the first of Chapultepec, the subaltern of Belen and at Sal Cuadro, and finally at the Citadel But the task of making of our so the gun of the army was not always supported, yet it was only by the cold sword that the enemy, in a day count taint to the nation, came himself master of the capital I have sought death in all parts, because a loss is great has occasioned, one the most profound despair In Chapultepec I received a contusion on, in Belen my clothes were pierced by the balls of the enemy, and around me disappeared the best soldiers of the Republic What more in time, then, in the midst of the awe and anguish which such a loss, in the unfortunate circumstances that I have personally sustained it is robed to the very last extremity and that I have sold dearly to the enemy his gained victory If I have been one in the front at Augustus Gen Cordi, Churubusco Chapultepec Belen, St Cosme, and the Citadel, and, we shall find me, I swear to you, where it is that I be useful and glorious for me to combat

I ought also to announce to you that I have spontaneously resigned the Presidency of the Republic, calling to assume it according to the Constitution, the President of the Supreme Court of Justice with the Associates, who will be the day unless of power, until the National Congress can decide who is to be whose good since shall be entrusted its future destinies

Why a power was entrusted to me under the most trying circumstances, I accepted it, in order that I might consolidate the elements of resistance existing in the country and upon the enemy a advance towards the capital, I resumed military command, that I might appear to have a force of considerable strength and concentrate all our resources for the defense But after the fall of the capital, circumstances have been altered and not a division of the commander is requisite, to promote the same objects To attack the enemy in his line of communication from Vera Cruz to the capital is imperiously urged and I alone must take upon me that responsibility, because I feel it incumbent upon me, ever to place myself on that quarter in which here is the most peril The supreme magistracy cannot be exposed to the hazard of war, and it is necessary to locate it amid population and wealth, in order to be not given over to anarchy, and in order that it may again arise with power and with glory

For the position here I recognized and authority in me as the alternate and as Minister, and the Senate recognized and by the down I have reported to congress, under lieu the welfare of our beloved country, I may have committed some errors in the discharge of my civil functions, but be assured that my desires and my impulses known no other stimulus, than the noble one of sacrificing the rank of the nation in which first I saw the light, and which has taken me with honor and with favor

I have said it be use, and here repeat it, that I never despair of the fate of my country It is true to be silent, and will listen to a sotorgan voice, if we be unanimous in our desires, in our yearnings, there is yet time to hurl the enemy from the soil, which he pollutes by his presence It is known to you that I rejected a peace which would reduce the Republic to a nullity, the most absurd and complete The nation has desired, and still desires war Let us continue it the, with the greatest intrepidity, and my example shall be a most ardent one

Faction cannot now despair with me concerning the power which with pleasure I abandon If they would dispute with me, let them come to the field of battle, there they will find the serene and firmly consecrated, as ever, to the most generous and holy of causes What do we care for misfortunes? Misfortune is the crucible of nations, and never in the Mexican nation grander than when she strives to force from destiny, the victory which God and justice promise us Mexicans 30 years have passed over since you proclaimed your independence, amid perils and fortunes sustain it forever

The Hardest Fighting yet.

Major W W Morris of the 6th Artillery, has received a letter from his brother, Captain Gouverneur Morris 6th U S Infantry, dated Jalapa, September 15th, in which he states that the command to which he was attached, consisting of between seven and eight hundred men, in marching from Vera Cruz to Jalapa, had in a conflict with the guerillas 18 killed and wounded, one hundred and fifty men—one fifth of the whole force engaged

Robbery in New Haven.

Constable Clapp received yesterday a telegraphic communication from New Haven, stating that the jewelry store of N Olmsted & Son, in that city, was broken open on Saturday night, and robbed of all of its valuable contents, viz. thirty two silver and twenty gold watches, forty sets of silver spoons, jewelry, &c values at $3000—Boston Traveller 25th

Here is a chap in a most awful condition and all owing to a raven of a girl saying she would do

I know 'tis a sin to—
But I'm bent on the action—
I'll throw myself into
The deep briny ocean,
Where mud, eels and rat fish
On my body shall root,
And flounders and flat fish
Select me for meat,
There soundly I'll slumber
Beneath the rough billow,
And crabs without number
Shall crawl o'er my pillow,
Cutting spirit shall wander through gay coral bowers,
And frisk with the mermaids—it shall by the powers!

WERE PETADLED in Boston by Gardner Chilson, in the short space of six months, and a large number have been sold by myself in this city This Stove is not equalled by any other stove in the United States, and the unparalleled sales it has met with fully bespeak its unparalleled merits

HOUSE KEEPERS should be sure and examine this superior Stove, which has won the admiration of some thousand house keepers the past season It has more real and useful improvements than all other combined. The fire brick Oven-top has proved to be of great value in absorbing the steam and causing the bread to rise and take light, (equal to the brick oven) The brick is found to be more durable than the iron top It also equalizes the heat around the oven, and a much more even bake is produced in this stove than any other stove known It has a most perfect arrangement for roasting in front The Summer arrangement for broiling, boiling, roasting, &c., is complete The grate clears itself, discharging the ashes into the ash pit The flues are large, and so arranged as not to fill up with soot It is surprising to see how small an amount of fuel it requires to perform so great a variety of cooking Its unrivalled appearance, substantial construction, and general good qualities, have set it forth to the

To the Public.

IMPORTANT MEDICAL NOTICE.

DR. PETERS has REMOVED from Endicott street to No. 13 Wilson's Lane, BOSTON, a few steps from Dock Square—where he can be consulted in all cases of Diseases of a delicate nature Dr. Peters has been in practice in Boston for the last twelve years, and is now acknowledged to be the most experienced Physician now advertising for the cure of certain maladies His cures are unlimited—his knowledge of delicate diseases unrivalled he spares no pains or expense to relieve those who honor him with their confidence.

To SEMINALS,

his experienced eye, at once, discovers the state and cause of the evil without first experimenting to ascertain the location of the disease, as do Quacks and Nostrum vendors He perceives the difficulty at once, and applies the right remedy

In CHRONIC AFFECTIONS

of the Bladder, he is always sure of performing a perfect cure—having a perfect knowledge of the organs affected, and the proper medicine to be applied

In GONORRHŒA,

a single glance enables him to ascertain the precise state of the disease, and to apply the *never failing remedies* to the particular case, and the complaint will disappear in a short time after the application, never to appear again

To SYPHILIS,

his medicines stand in the foremost rank of the medical world—removing the disease from the system, no matter of how long standing or difficult it may be

Also, the following diseases come under the special care of Dr Peters—viz. Kings Evil—Self Abuse—Tetter—Cutaneous Affections—Seminal Weakness—Nocturnal Emissions, superinduced by secret bad habits when young, &c. &c

To FEMALES,

Dr Peters would say that he has a perfect knowledge of their systems, and can warrant them a perfect cure from a complaint peculiar to their sex The following are a part of the complaints which come under his particular notice—viz Suppression Irregularities of the Menses—Whites—Pains in the Back and Sides—Falling of the Womb—Gleets Sickness, &c. &c

N B Persons at a distance can consult Dr. Peters by letter, *post-paid*, describing their complaints, and enclosing a remittance Direct "Dr Peters, 13 Wilson's Lane, Boston, Mass." Medicines can be sent by Express to all parts of the United States and the Canadas.

To Strangers,

Dr. Peters would say that his medicines can be taken at sea, and are peculiarly fitted for their use, being concentrated into a portable and compact form. If those who are about taking sea voyages will call upon Dr. Peters, he will give them ample proof of his abilities to perform a perfect cure, however protracted their case may be

DR. E. R. SMILIE'S

Alkaloic Xabon,

FOR CLEANSING TEETH.

IN the preparation of this article there is nothing used which will prove in the slightest degree injurious to the structure of the Teeth as its chemical components preclude the possibility of injury to any of the properties entering into their composition From its alkaline principle it corrects the vitiating fluids of the mouth whether arising from acid eructations of the stomach, or the decomposition of food collected about the interstices of the teeth and gums, by its removal, preventing the deposite of tartar, causing the teeth to assume a clear surface, free from the usual stain at the junction of the gums common to the use of the various dentrifices now in vogue, removing from the breath the unpleasant odors usually attending the above diseases.

N B It has received the approbation of Drs Bell and Booth of the McLane Asylum, and others who would only give their views in accordance with their belief for the benefit of the public

DR. S. D. RICHARDSON'S CONCENTRATED **Sherry-Wine Bitters.**

THE Proprietor of this medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters that they possess a preeminence over all others now in use, for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful, adult and declining life

The extensive sympathies which subsist between these and every other part of the living body to the foundation of Nervous Diseases of all kinds—Irregular Appetite, Languor Drowsiness Wandering Pains Headache Fourness of Spirits, &c

And these in their turn give birth to Dyspepsia, Palpitation of the Heart Shortness of Breath, Jaundice, Piles Fever Inflammatory Humors Coughs and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most attributed their operation being more or less powerful according to the violence of the disease.

When used in appropriate quantity, for cases of slight derangement of the Stomach and Bowels, caused by costiveness or a slight bilious difficulty and the like, where nature needs assistance to prevent more serious consequences, they will be scarcely felt

On the contrary, in obstinate cases, they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified. This accomplished, they act on the system in combination with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor.
